Porcelain Tableware Manufacturer

www.pardischini.com

Pardis chini Company with more than 40 years of activity and experience in porcelain tableware and new bone field and also use the latest technology and machinery, is honored to produce and design, spacious collections of high quality porcelain tableware, symmetric with demand, for offer in the domestic and international markets.

Our aim is, to improve the quality and increase the variety in production and offer new products to satisfy our customers. In order to gain this aim we apply modern methods and put the international standard, and now with the capacity of production 10000tons per year, we are trying to use our experts' initiative, for creating proportional value for all the beneficiaries.

We are trying to not only work for domestic manufacturing, but also join the international market and by the initiative and specialty of our experts and modern methods, we are honored to be representative of Iranian culture and tradition. And our policies in this way are using the modern and latest technology to satisfy our customers.

By all of these issues, and presenting variety in tableware, we are honored to be a part of Iranian Porcelain Industry, and making a memorable dining experience for people, is that we are always proud of it.
